Bothell, WA 98201

Dear Mr. Mothersbaugh:

Re: Conditional Use Designation for the Water Tectonics Electrocoagulation
Subtractive Technology

On behalf of the Washington State Department of Ecology, I would like to congratulate you and your company for achieving a Conditional Use Designation for your Electrocoagulation Subtractive Technology (ECST) for continuous stormwater treatment applications at construction sites. Our determination is based on your application documents and assessments by the Technical Review Committee and our staff. We appreciate your professional effort in demonstrating the viability of this technology.

We plan to publish the Conditional Use Designation document on the web, along with appropriate links to pertinent information on the technology.

If you need additional information, please don't hesitate to contact either me at 360/407-6405, or Dewey Weaver at 360/407-6443.

Sincerely,

David C. Peeler
Water Quality Program Manager

cc: Dewey Weaver
Jeff Dendy, Chair-Technical Review Committee
